

Reference No. 6.37

WAGE RATES INDEXES : NOVEMBER 1974 (PRELIMINARY STATEMENT)

MAIN FEATURES

In November the weighted average minimum weekly wage rate for adult males rose by 59 cents and for adult females by 17 cents.

The increase in the female rate was lower than that for any month since October 1972.

In the twelve months ended November 1974 the wage rates indexes for Australia increased by:

- 33 per cent to \$102.69 a week for adult males
- 42 per cent to \$89.35 a week for adult females

EXPLANATORY NOTES

This statement contains figures of weighted average minimum weekly and hourly wage rates and index numbers for adult males and adult females for November 1974 and corresponding figures for some earlier months. More information on these statistics will appear later in the monthly bulletin *Wage Rates and Earnings* (Reference No. 6.16) which also contains explanatory notes covering definitions, scope of the statistics, etc.

2. The wage rates used in the compilation of the indexes are the lowest rates for a full week's work (excluding overtime) prescribed for particular occupations in awards or determinations of Federal or State industrial authorities; in collective agreements

registered with these authorities; or in unregistered collective agreements where these are dominant in particular industries. Because the indexes are designed to measure movements in prescribed minimum rates of *wages* as distinct from *salaries*, those awards, etc. which relate solely or mainly to salary earners are excluded. Because of delays in the receipt of notification of changes in wage rates as well as retrospective changes to rates, figures for July 1973 and subsequent months are subject to revision. As such revisions are made they are published in the normal monthly tables of this statement.

3. The indexes are designed to measure trends in wage rates in current awards, etc. excluding the effects of changes in the relative importance of industries, awards and occupations. The weighted average wage rates shown in these tables are therefore indexes expressed in money terms, and do not purport to be actual current averages. Similarly, neither these weighted average wage rates nor the corresponding index numbers measure the relative levels of average current wage rates as between States or industries.

NOTE: The wage rates index figures for adult females for October 1974 have been significantly reduced for Victoria, with consequential changes to figures for Australia. Revised figures for industry groups are available on request.

TABLE 1. - WEEKLY AND HOURLY WAGE RATES : ADULT MALES AND ADULT FEMALES
ALL INDUSTRY GROUPS, AUSTRALIA (a)

Weighted average minimum weekly rates payable for a full week's work (excluding overtime), as prescribed in awards, determinations and collective agreements; weighted average minimum hourly rates payable; and index numbers of wage rates.

(a) Figures subject to revision. See explanatory notes above. (b) Excludes rural industry. Hourly rates also exclude shipping and stevedoring. The former is not included in the wage rates index and for the latter definite particulars for the computation of hourly wage rates are not available. (c) Excludes rural industry; mining and quarrying; and building and construction. (d) Percentage change over the same month of the previous year. These percentages may fluctuate from month to month owing to the timing of significant award changes. (e) Base : Weighted average wage rate, Australia, year 1954 = 100. (f) See NOTE above.

TABLE 2. - WEEKLY WAGE RATES : ADULT MALES, INDUSTRY GROUPS, 30 NOVEMBER 1974 (a)
